Author Index

Albonetti, M.E. and Farabollini, F.
Behavioural responses to single and repeated restraint in male and female rats (28) 97

Beck, C.D.O. and Rankin, C.H.
Effects of aging on habituation in the nematode *Caenorhabditis elegans* (28) 145
Bradshaw, R.H. and Dawkins, M.S.
Slides of conspecifics as representatives of real animals in laying hens (*Gallus domesticus*) (28) 165

Cammaerts, M.-C., see Verhaeghe, J.-C. (28) 199
Cammaerts, R.
Stimuli inducing the regurgitation of the workers of *Lasius flavus* (Formicidae) upon the myrmecophilous beetle *Claviger testaceus* (Pselaphidae) (28) 81
Cervo, R., see Dani, F.R. (28) 51
Chalmeau, R. and Gallo, A.
Social constraints determine what is learned in the chimpanzee (28) 173

Dani, F.R., Cervo, R. and Turillazzi, S.
Abdomen stroking behaviour and its possible functions in *Polistes dominulus* (Christ) (Hymenoptera, Vespidae) (28) 51
Dawkins, M.S., see Bradshaw, R.H. (28) 165
Draud, M.J., see Itzkowitz, M. (28) 59
Dunham, D.W., see Halperin, J.R.P. (28) 13, 123
Durand, J.P., see Uiblein, F. (28) 33

Fabrigoule, C. and Sagave, I.
Reorganisation of cues and path organisation in dogs (28) 65
Farabollini, F., see Albonetti, M.E. (28) 97

Gallo, A., see Chalmeau, R. (28) 173
Gerard, J.-F. and Richard-Hansen, C.
Social affinities as the basis of the social organization of a Pyrenean chamois (*Rupicapra pyrenaica*) population in an open mountain range (28) 111

Halperin, J.R.P. and Dunham, D.W.
Increased aggressiveness after brief social isolation of adult fish: a connectionist model which organizes this literature (28) 123
Halperin, J.R.P., Dunham, D.W. and Ye, S.
Social isolation increases social display after priming in *Betta splendens* but decreases aggressive readiness (28) 13

Itzkowitz, M. and Draud, M.J.
Conspecific intruders influence pair formation in a monogamous fish (28) 59

Jäger, R.
Lateral forebrain lesions affect pecking accuracy in the pigeon (28) 181
Juberthie, C., see Uiblein, F. (28) 33

Lamb, A.E. and Ollason, J.G.
Foraging wood-ants *Formica aquilonia* Yarrow (Hymenoptera: Formicidae) tend to adopt the ideal free distribution (28) 189
Lydersen, T.
Timeout induced by differential-reinforcement-of-low-rate schedules (28) 1

Ollason, J.G., see Lamb, A.E. (28) 189

Parzefall, J., see Uiblein, F. (28) 33
Petherick, J.C., Seawright, E. and Waddington, D.
Influence of motivational state on choice of food or a dustbathing/foraging substrate by domestic hens (28) 209

Rankin, C.H., see Beck, C.D.O. (28) 145
Richard-Hansen, C., see Gerard, J.-F. (28) 111

Sagave, I., see Fabrigoule, C. (28) 65
Seawright, E., see Petherick, J.C. (28) 209
Špinka, M.
Intersucking in dairy heifers during the first two years of life (28) 41

Turillazzi, S., see Dani, F.R. (28) 51

Uiblein, F., Durand, J.P., Juberthie, C. and Parzefall, J.
Predation in caves: the effects of prey immobility and darkness on the foraging behaviour of two salamanders, *Euproctus asper* and *Proteus anguinus* (28) 33

Verhaeghe, J.-C. and Cammaerts, M.-C.
Possible function for a previously discovered pheromone on the last sternite of the ant *Tetramorium impurum* Mayr (Hymenoptera, Formicidae, Myrmicinae) (28) 199

Waddington, D., see Petherick, J.C. (28) 209

Ye, S., see Halperin, J.R.P. (28) 13

Subject Index

Abdomen stroking, (28) 51
Aggression, (28) 13, (28) 59, (28) 123
Aging, (28) 145
Ant, (28) 189
Approach behaviour, (28) 33

Calf, (28) 41
Cave foraging, (28) 33
Chimpanzee, (28) 173
Chironomid larvae, (28) 33
Cichlasoma cyanoguttatum, (28) 59
Cognitive mapping, (28) 65
Collateral behavior, (28) 1
Connectionism, (28) 13, (28) 123
Conspecifics, (28) 165
Courtship, (28) 59

Dairy cattle, (28) 41
Dead prey, (28) 33
Differential-reinforcement-of-low-rate, (28) 1
Discriminate, (28) 165
Dominance behaviour, (28) 51
Dominant individual, (28) 51

Elevated plus-maze, (28) 97
Extinction, (28) 1

Food, (28) 209
Foraging, (28) 189
Formica aquilonia, (28) 189
Formicidae, (28) 81

Gallus domesticus, (28) 165

Habituation, (28) 145
Heifer, (28) 41
Hole-board, (28) 97
Hypogean salamander, (28) 33

Ideal free distribution, (28) 189
Individual strategy, (28) 65, (28) 173
Inter-attraction, (28) 111
Intersucking, (28) 41

Last sternite, (28) 199
Learning, (28) 145, (28) 209
Lever press, (28) 1
Litter, (28) 209

Motivation, (28) 13, (28) 123, (28) 209
Mountain ungulate, (28) 111
Myrmecophile, (28) 81
Myrmicinae, (28) 199

Nematoda, (28) 145

Operant conditioning, (28) 173
Overlearning, (28) 65

Pair bond, (28) 59
Polistes, (28) 51
Poultry, (28) 209
Preference, (28) 209
Priming, (28) 13
Pselaphidae, (28) 81

Rat, (28) 1
Recognition, (28) 51
Recruitment, (28) 199
Regurgitation allomone, (28) 81
Reorganisation of information, (28) 65
Rupicapra pyrenaica pyrenaica, (28) 111

Schedule-induced timeout, (28) 1
Search mode, (28) 33
Seasonal variation, (28) 111
Sex difference, (28) 97
Sexual segregation, (28) 111
Single/repeated restraint, (28) 97
Slides, (28) 165
Social affinity, (28) 111
Social influence, (28) 173
Social isolation, (28) 13, (28) 123
Social structure, (28) 111
Social system, (28) 111
Spatial behaviour, (28) 65
Spatial representation, (28) 65
Synapse, (28) 123

Tetramorium impurum, (28) 199
Texas cichlid, (28) 59
Trail, (28) 199
Trophallaxis, (28) 81
